

## **CHILDREN AND YOUNG PEOPLE RIGHTS CHECK**

We have a policy, which is like a promise, called “conduct and services standards”.

We made some changes to make this promise to treat people we support even better.

That includes a promise to children and young people to meet your rights and listen to you.

We decided to check if these changes would have a good effect, or not, on children and young people.

We did this through something called a “Child Rights and Wellbeing Impact Assessment”.

We say a lot about meeting your rights under the UN Convention of the Rights of the Child, so we found that this policy has a good effect on your rights.

We did this on 23rd August 2022
